Hi Joe,

I sent Doug the presentation and also asked Melinda to post it. Once it's posted, I'll send a note to the email list with the link to the webpage.

Would you please send him the info about the timeline – I know it's still too early to have much info, but at least you can let him know that.

Thanks

Pat

Subject: 11-18-2020 Call

Ms. Seppi, I hope you are well and safe.

Was last night's call recorded? If so can I receive a copy? Could not get out of work in time to participate.

Is there a timeline for OU2 construction - machine placement and digging?

OU3?

Thank you. I hope you are all dealing with the craziness productively and positively!
